# COMPRESSION ZONES — OVERVIEW TIGHTS, SHORTS & KNEE SLEEVES THIGH ZONE Reduced muscle vibrations KNEE ZONE Knee joint stabilization CALF ZONE Light legs

# TIGHTS 3/4 TIGHTS SHORTS KNEE SLEEVE

# **SOCKS & SLEEVES**

# **CEP TECHNOLOGIES**

# **CEP SMART TECHNOLOGIES**

# **MEDI** COMPRESSION

medi compression ensures ultra-precise compression control by incorporating a compression thread into every stitch row of the product to provide targeted compression exactly where it's needed.

# **TIGHTFIT** TECHNOLOGY

The TIGHTFIT Technology in the bi-elastic fabric delivers effective compression. Combined with perfect, flat seams, this guarantees unmatched wearing comfort.

# CEP CLIMA TECHNOLOGIES

# **BEST CLIMA**

A balanced blend of materials for warm and cold temperatures that perfectly adapts to your unique athletic challenge. The use of hydrophilic materials ensures rapid moisture wicking and unmatched wearing comfort. Integrated filament yarns make the fabric extremely durable.

# **COOL** CLIMA

[Ultra]light products by CEP feature a thin fabric with excellent wicking properties so you stay cool and dry. The thinly padded foot section of the socks ensures ultimate comfort and direct contact in close-fitting shoes.

# WARM CLIMA

Merino products by CEP combine the comfortable wearing characteristics of merino wool with the effectiveness of high-quality polyamide fibers. Optimum body temperature, unique moisture management and enhanced durability are the key characteristics of this blend of fibers.

# THERMAL CLIMA

Thermal Clima technology is designed to keep you warm even in below freezing temperatures. This effect comes from the plush-enhanced inside of our high-quality products, which creates layers of air between the fibers that store heat. The high-tech yarn has excellent moisture wicking properties.

# SMART CARBON

The carbon-infused yarn gives the socks extreme strength with high elasticity; keeps you cool and is super lightweight.

# SMART **INFRARED**

Yarns with bioactive minerals reflect the body's own infrared radiation and support natural recovery processes through improved microcirculation.

# **SMART SILICONE**

The special silicone pads provide relief to targeted areas with a deep tissue massage effect. They dynamically adapt to your sequence of motion and are optimized for athletic challenges.

# SMART GRIP

Highly flexible and ultra-thin dots on the bottom of the socks ensure a perfect stay-put fit and secure control in shoes.

# SMART REFLECTIVE

The eye-catching reflective elements increase visibility and safety when running in the dark. The high-performance fabric reflects light that directly hits the surface of the material.

# SMART STRETCH

The polyamide/spandex blend guarantees a perfect fit and maximum freedom of movement. The fabric wraps around your body for superior wearing comfort.

# SMART COOLING

Wicking & cooling treatment absorbs moisture and quickly transports it to the surface of the fabric where it evaporates and cools your skin.

RUNNING SOCKS THAT EFFECTIVELY ACTIVATE YOU

- Precise compression profile for light legs and a recovery effect thanks to an optimal supply of nutrients
- Anatomical design and perfectly positioned padding for
- unmatched comfort, no blisters and a stay-put fit
- Innovative air channels in the foot, mesh structure in the calf and ventilation zones in the toe for superior foot comfort Joint and muscle stabilization thanks to activating compression

Extra-thin compressive fabric and anti-slip beading on the inside for a perfect stay-put fit during workouts and sports.

# **ANKLE SLEEVE**

Deep tissue massage for improved microcirculation and reduced ankle swelling.

# **PLANTAR SLEEVES**

Innovative combination of a knitted elastic massage zone and medi compression relieves pain and discomfort in the heel and sole.

# ANKLE SUPPORT/BRACE

Soft SMART **SILICONE** pads protect the ankle and provide support.

# **ACHILLES SUPPORT/BRACE**

Highly adaptive SMART **SILICONE** pads provide relief and take pressure off the Achilles tendon.

# **COMPRESSION KNEE BRACE**

FOR MORE PROTECTION AND SECURITY WHEN YOU RUN

## **TOP FEATURES**

- The SMART **SILICONE** patella ring reduces the risk of injury through deep sensory support
- The proven medi compression increases your sense of position of your knee joint and activates greater control
- The brace has a stay-put fit thanks to its stretchy design with silicone beading

## MATERIAL

62% polyamide 22% polyester 16% spandex

# **TOP FEATURES**

■ Perfectly positioned SMART **SILICONE** pads protect and stabilize your ankle

EFFECTIVE PROTECTION OF

LIGAMENTS AND TENDONS

**COMPRESSION** 

**ACHILLES BRACE** 

- The proven medi compression activates microcirculation for greater ankle control
- The brace adapts to athletic movements without slipping thanks to its stretchy, anatomical design

## MATERIAL

50% polyamide

30% polyester 20% spandex

# EXCELLENT SUPPORT AND

## TOP FEATURES

Additional targeted ankle activation for stabilization and protection

TARGETED COMPRESSION

**COMPRESSION** 

**ANKLE BRACE** 

- Precisely defined medi compression for microcirculation and reduced swelling
- The brace adapts to athletic movements without slipping thanks to its stretchy, anatomical design
